

Governance in the Time of Corona:

7 years of Digital
Transformation in 1

Dalriada. A better way

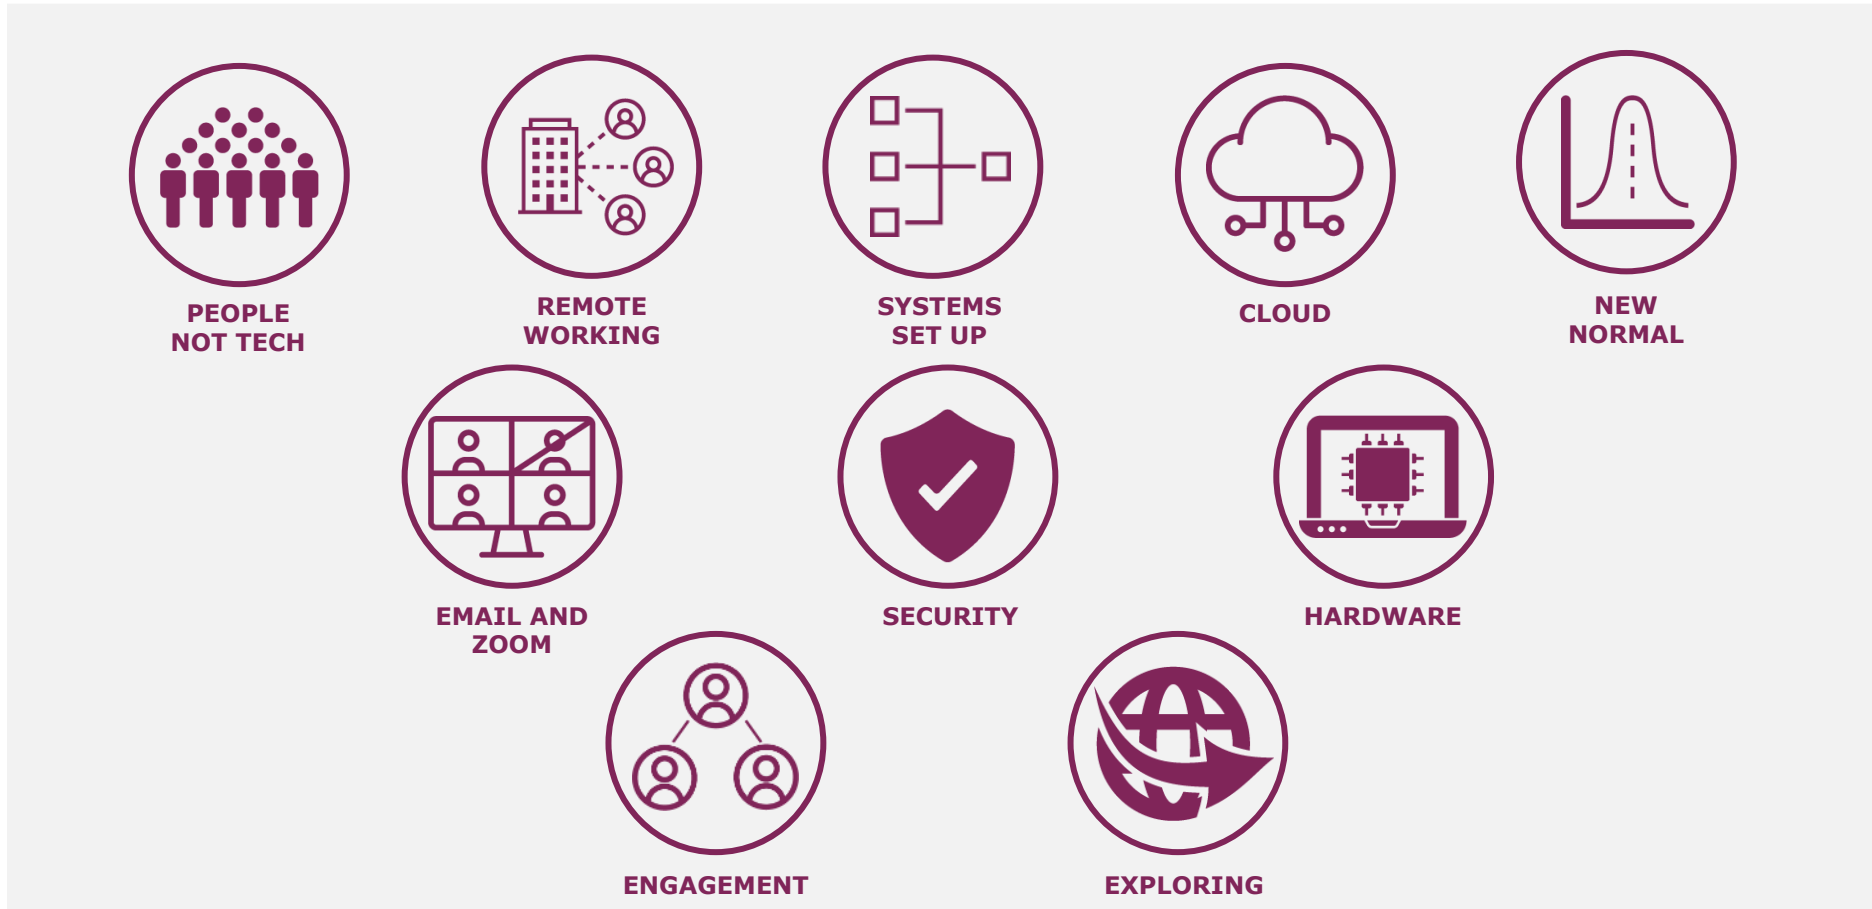

- **The last year...governance, communication, collaboration: all done remotely**
- **Data is NOT the new oil**
- **What are you trying to achieve?**
- **When you say “Technology solution” do you really mean “automagically?”**
- **Jumping to the next curve**
- **What schemes should be thinking about**

2020: The missing year with 7 years of digital transformation (McKinsey)

Data: The new (S)oil

Dalriada. A better way

– “Data is not the new Oil, it’s the new Soil”, David McAndless; let things flourish, irrigate it with networks and connections, yes you can mine and scrape for data, but that’s what the big evil corporations do, you can also harvest the amazing insights from it.

What are you really trying to achieve? And what do you need to achieve it?

Dalriada. A better way

- Strategic Plan: Value of various exercises, data cleansing, GMPE, ETV
 - Measure
 - Set triggers
 - IRM
- Why digital?
 - Live data
 - Measure more accurately
 - Real triggers
 - Faster trading algorithms and analytics

Jumping to the next curve

Dalriada. A better way

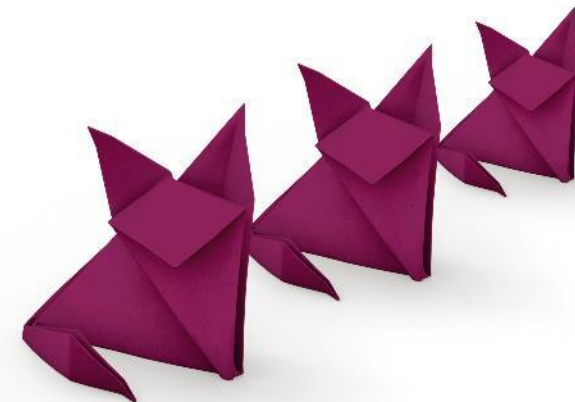

Automagically vs practical

- We're not dealing with real artificial intelligence and google here
- However...
- The next curve:
 - Ice gathering
 - Ice making
 - Refrigeration
 - Food delivery and logistics

Jumping to the next curve

Dalriada. A better way

- Graph paper, spreadsheets, stochastic modelling
 - Fax to email to zoom and portals
 - Booklets to sites to emails to portals
 - Gold to assets to crypto to smart contracts
 - Plan for an annuity, plan for a lump sum, plan for an income, plan for a lifestyle, plan for health

Things for Trustees to think about...

Dalriada. A better way

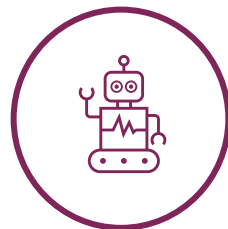

- What decisions will you need to make?
- What data and information do you have to help you make those decisions?
- What data do you want to be able to see easily and regularly?
- Who else needs to see it? And how?
- How will you communicate around that decision making?
- How will you record those decisions?
- How secure is that record and that data?
